Roomy. Spacious. Let's just call it huge. But it's also smart. Starting with the main-floor master suite that feels like a wing unto itself, helping to frame the back yard and a nice place for a sprawling deck or patio. The kitchen comes with a walk-in pantry and a large island overlooking the dining room, which overlooks the great room. Which, collectively, is why this home is primed for big parties. There's a flex space off the foyer that can be your den, office or whatever you can imagine. Then, there are three great bedrooms upstairs so everyone in the family has a place to call their own.
