The Jackson

4,104 Sq Ft • 4 Bedroom • 2½ Bath • Five-Level Split

1ST FLOOR

1 Five levels of “Whoa, that’s smart,” with thoughtful design that keeps everyone close ... but not too close.

2 The owner’s suite gets its own level — because you deserve a little breathing room.

3 A flex room, rec room and a loft? That’s a lot of room for work, fun, and everything in between.

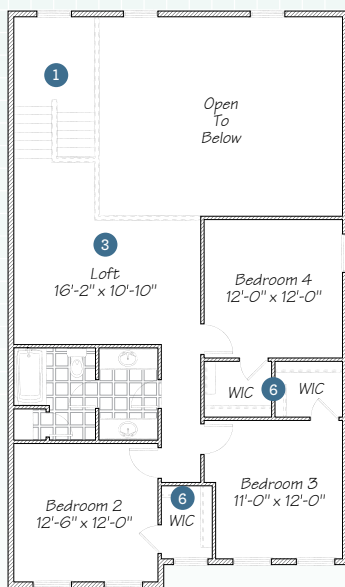

4 One pantry for food, one pantry for everything else. Snacks here. Vacuum there. Sanity everywhere.

5 A two-story great room with windows on two sides = sunlight so good, you’ll need to wear shades.

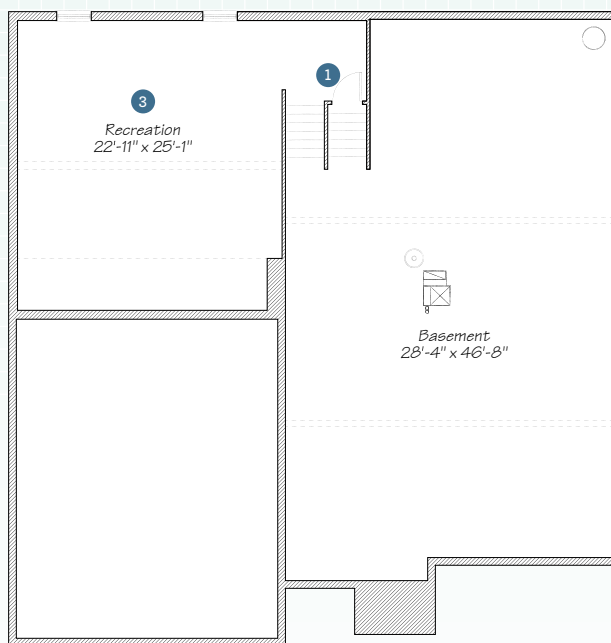

6 Get your steps in thanks to a walk-in coat closet, walk-in pantry, and walk-in closets in every bedroom.

7 A 28-foot-deep garage has plenty of room for cars, bikes, and all that sporting equipment you accumulated over the years.
